1 Scope

This Part of GB/T 12467 provides a general outline for criteria to be taken into account for the selection of the appropriate level of quality requirements for fusion welding of metallic materials.

This Part is applicable to the welding manufacture in workshops and on site.

2 Normative References

The provisions in following documents become the provisions of this Part of GB/T

12467 through reference in this Part. For dated references, the subsequent amendments (excluding corrigendum) or revisions do not apply to this Part, however, parties who reach an agreement based on this Part are encouraged to study if the latest versions of these documents are applicable. For undated references, the latest edition of the referenced document applies.
