What this standard covers

This standard specifies the general requirements and test methods for civil wafer-type ceramic capacitor and a variable pre-set level of quality to be achieved. This standard applies to civilian use in electronic equipment and in its lifetime, simply turn the minimal number of chip-type ceramic ring preset variable capacitor.

Document data

International classification (ICS): 31.060.60.

Chinese classification (CCS): L11.

Estimated length of the Chinese original: 8,820 words.

Adopted international standard: IEC 60499-1, NEQ.
