Foreword

This standard replaces GB/T 13144-1991 "packaging container bamboo plywood box." This standard compared with GB/T 13144-1991, the main changes are as follows:

- Bamboo plywood box in a predetermined hierarchy, and adds support for C, D type rating box contents;
- In the material requirements, modify the content of wood, metal pieces, an increase of timber fumigation or heat treatment requirements;
- Deleted the content of the bamboo Magnesite concrete box;
- Information about content protection methods;
- Remove the inspection rules and packaging, labeling, transportation and storage of the contents;
- Remove the formulas in Appendix C skids, sleepers size, regulations skids, sleepers size reference GB/T 7284 related content. The Standard Appendix A, Appendix B, Appendix C are informative appendices. This standard by the National Packaging Standardization Technical Committee (SAC/TC49) and focal points. This standard was drafted. Mechanical Science Research Institute, the machine Productivity Promotion Center, China Packaging Federation. The main drafters of this standard. yellow snow, Zhang Jian, Liu Ping, out of more than temporary, Zhu Jing, Secretary Restoration. This standard replaces the standards previously issued as follows:
- GB/T 13144-1991. Bamboo plywood box packaging container

1 Scope

GB/T 13144-2008 is the Chinese national standard on packaging containers - cases with plybamboo, in the field of packaging and distribution of goods. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 18 July 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China;

Standardization Administration of China, and has been in force since 1 January 2009.

Classification: ICS 55.020, CCS A82. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the bamboo plywood box type and classification, requirements, test methods and protection methods and so on. This standard applies to transport packaging with bamboo plywood crates.
