1 Scope

GB/T 13214-2021 is the Chinese national standard on general quality requirements for canned beef and canned mutton, in the field of food technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 20 August 2021 by the State Administration for Market Regulation; Standardization Administration of China, and has been in force since 1 September 2022. Classification: ICS 67.120.10, CCS X71. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This document specifies the terms and definitions, product classification and code, requirements, test methods, inspection rules and packaging of canned beef and mutton. Installation, marking, transportation and storage. This document applies to beef or mutton (with or without bone) as the main raw material, which is prepared by pretreatment, canning, sealing, sterilization, and cooling Canned food.
