What this standard covers

This standard specifies the basic requirements and methods of heating alloy fast life test. This standard applies to quick life test iron chrome aluminum and nickel Yu Series class high electric resistance alloys.

Document data

International classification (ICS): 77.040.30.

Chinese classification (CCS): H21.

Estimated length of the Chinese original: 8,887 words.

Supersedes the earlier edition GB 1234-1985; YB 952-1982; JB 1097-1984.
