

ICS 71.120
CCS G 94

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 13465.7-2009

**Test method of the rates of body weight gain and pore filling of
impermeable graphite**

不透性石墨增重率和填孔率试验方法

(English Translation)

Issued on: April 29, 2009

Implemented on: January 1, 2010

Issued by: Standardization Administration of China

What this standard covers

This standard specifies the detection of impervious graphite sample weight gain rate and filling rate used, test equipment, test procedures and results of calculations. This section applies to the determination of impervious graphite growth rate and filling rate.

Document data

International classification (ICS): 71.120.

Chinese classification (CCS): G94.

Estimated length of the Chinese original: 8,861 words.

Adopted international standard: JIS R7222-1997, NEQ.
