What this standard covers

This standard specifies the test procedures and results of calculations, specimens, The test device used to detect when the standard impervious graphite adhesive bonding shear strength. This section applies to inter- impervious graphite graphite adhesive bonding shear strength was measured.

Document data

International classification (ICS): 71.120.

Chinese classification (CCS): G94.

Estimated length of the Chinese original: 8,888 words.

Adopted international standard: ASTM C565-1998, NEQ.
