

ICS 31.06
CCS L 11

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 14004-1992

**Fixed capacitors for use in electronic equipment. Part 6:
Sectional specification. Fixed metallized polycarbonate film
dielectric d.c. capacitors**

(English Translation)

Issued on: December 17, 1992

Implemented on: August 1, 1993

Issued by: State Bureau of Technical Supervision

What this standard covers

This standard specifies the general requirements for metallized polycarbonate film dielectric dc capacitors, regulations and test methods for quality assessment. This standard applies to electronic equipment metallized polycarbonate film dielectric dc capacitors, these capacitors can have depends on the conditions of use of "self-healing", mainly used in the AC component is smaller than its rated voltage places. This standard includes two performance levels capacitors: one with a long life, two ordinary use. This standard does not include radio interference suppression capacitors.

Document data

International classification (ICS): 31.06.

Chinese classification (CCS): L11.

Estimated length of the Chinese original: 17,118 words.

Adopted international standard: IEC 60384-6-1987, IDT.
