1 Foreword

GB/T 14129-1993 was issued by State Bureau of Technical Supervision on 3 February 1993 and has been in force since 1 August 1993.

2 Scope

This standard specifies the semiconductor integrated circuit TTL varieties PAL series (hereinafter referred to as the device) name, terminals arranged in a functional block diagram, logic diagram and main characteristics (including input, output characteristics and the main electrical parameters). Quality assessment devices should comply with detailed specifications about the device. Production (research) or use the device, you should meet the requirements of this standard. Unless otherwise noted, the logic involved in this standard are positive logic. It cites 4 other standards.
