What this standard covers

This standard defines the following standard HDLC an application. HDLC standards include GB/T 15124 and GB/T 14399-2008. When one from the other criteria necessary to re-interpretation of the wording of difficulty, places GB/T 15124 and GB/T 14399-2008 original requirement shall prevail. It also defines the ITU-T recommendation X. 25 protocol specified in the DTE operation using X. 25LAPB structure, elements and procedures. The order applies to DTE and DCE data exchange between, or the exchange of data between two DTE. The protocol defined is intended for synchronous full-duplex link, for the synchronous transmission or start/stop transmission.

Document data

International classification (ICS): 35.100.20.

Chinese classification (CCS): L78.

Estimated length of the Chinese original: 42,458 words.

Adopted international standard: ISO/IEC 7776-1995, IDT.

Supersedes the earlier edition GB/T 14399-1993.
