What this standard covers

This standard specifies test methods system BER performance and system jitter cable communication system. This standard applies to optical fiber digital transmission systems (digital segment, digital link, etc.) and jitter test BER performance characteristics. Other digital transmission systems and various test error and jitter characteristics of optical, electrical equipment may also refer to the use.

Document data

International classification (ICS): 33.180.30.

Chinese classification (CCS): M15.

Estimated length of the Chinese original: 8,887 words.
