National Leather Quality Supervision and Inspection Center (Zhejiang), China Leather and Footwear Industry Research Institute. The main drafters of this standard. Huang Xinxia, Zhang Yahong, Lin Fang, Xu Yaping. This standard replaces the standards previously issued as.

--- GB/T 14789-1993. Mink skin

1 Scope

GB/T 14789-2017 is the Chinese national standard on raw mink skins, in the field of textile and leather technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 29 December 2017 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 July 2018. Classification: ICS 59.140.30, CCS Y46. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the mink skin related terms and definitions, requirements, test methods, inspection rules and packaging, transport and storage requirements. This standard applies to mink.

2 Terms and definitions
