### What this standard covers

This standard specifies the organic chemical products acidity, alkalinity test method for measuring volumetric analysis. This standard applies to the determination of organic chemical products to acid or alkaline substances impurities in the form of content, the content is known as acidity or alkalinity. The determination of organic chemical products acidity, alkalinity with this standard, the standard titration solution with alkali or acid standard solution titration titration volume of not less than 0. 01mL.

### Document data

International classification (ICS): 71.08.

Chinese classification (CCS): G15.

Estimated length of the Chinese original: 5,516 words.

Adopted international standard: ISO 1393-1977, NEQ; ISO 2887-1987, NEQ; ISO 6353-1-1982, NEQ.
