What this standard covers

This standard specifies a range of fixed and free connectors with 4, 6 or 8 contacts of 8 connector device. These connectors have a common mating features, different types of mounting structures and terminations. Fixed connector with the terminations, suitable for welding, insulation displacement, screw, crimp, insulation displacement terminations, PCB mounting and floating leads. Free connectors with crimp, insulation displacement and insulation displacement terminations, with soft lines, stranded or solid conductor cable assembly. But now, free connectors has only limited access client types and specifications.

Document data

International classification (ICS): 31.220.10.

Chinese classification (CCS): L23.

Estimated length of the Chinese original: 61,667 words.

Adopted international standard: IEC 60603-7-1996, IDT.
