People's Republic of China import and export licenses format Part 1. import license format

1 Scope

GB/T 15311.1-2008 is the Chinese national standard on forms of import and export licences of the people's republic of china - part 1: form of import licence, in the field of information technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 18 June 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 November 2008. Classification: ICS 35.240.60, CCS A13. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This section GB/T 15311 specifies the format of People's Republic of China import license. This section applies to versions and People's Republic of China import license, print, and information processing.
