1 Scope

GB/T 1537-2019 is the Chinese national standard on cottonseed oil, in the field of food technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 4 June 2019 by the State Administration for Market Regulation; Standardization Administration of China, and has been in force since 1 January 2020. Classification: ICS 67.200.10, CCS X14. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the terms and definitions, classification, quality requirements, inspection methods and rules, labels and labels, packaging, storage, and transportation of cottonseed oil. Loss and sales, etc. This standard applies to finished cottonseed oil and cottonseed crude oil. The quality index of cottonseed crude oil is only applicable to the trade of cottonseed crude oil.
