Foreword

This standard replaces GB/T 15421-1994 "Code of international trade." This standard and GB/T 15421-1994 "International trade codes," compared to the following changes.

--- According to the actual needs of our international trade, widely customs code. Adjust the code number of international trade, in order to break Together China's foreign trade statistics needs;

--- Added some new international trade classification code, such as "international trade in services", "international investment", in order to adapt to international trade The main direction of development;

--- According to business needs, the revised code that the international trade in order to facilitate the implementation of enterprise use. The standard proposed by China National Institute of Standardization. This standard by the National Standardization Technical Committee of e-business. This standard drafting units. China National Institute of Standardization, the Ministry of Commerce, General Administration of Customs, Foreign Economic and Trade University, China Minmetals Corporation, Huawei Technologies Co., Ltd. The main drafters. Zhang Yin Fen, Meng Zhu, Shiwen, the Hu Han Jing, Jiang Hansheng, Wang Zhihong, Liu Ying. This standard was first released in December 1994.

With China's accession to the World Trade Organization (WTO), foreign trade and international economic cooperation for development of our country rapidly. Promulgated in 1994 "People's Republic of China Foreign Trade Law" was amended in 2004, made significant changes. 1994 developed GB/T 15421- 1994 "international trade codes" are widely used in all aspects of China's foreign trade statistics and trade between the two sides and other information transmission, according to Requires development of international trade, this standard accordingly made important amendments. Revision and implementation of the standards will play a positive role in promoting the exchange of information of international trade. International trade codes

1 Scope

GB/T 15421-2008 is the Chinese national standard on codes for international trade mode,

in the field of services and company organization. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 11 April 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 September 2008. Classification: ICS 03.100.20, CCS A10. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the code of international trade engaged in international trade and international economic cooperation applicable. This standard applies to institutions engaged in international trade of electronic data exchange and information processing.

2 Compilation principles
