

ICS 35.080
CCS L77

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 15532-2008

Replacing GB/T 15532-1995

Specification of computer software testing

计算机软件测试规范

Issued on: April 11, 2008

Implemented on: September 1, 2008

**Issued by: General Administration of Quality Supervision, Inspection and
Quarantine of the People's Republic of China;
Standardization Administration of China**

Table of Contents

1	Scope	
2	Normative references	
3	Terms and Definitions	
4	Unit test activities	
4.1	Development of methodologies, resources and schedule	
4.2	Test category	
4.3	Refinement Plan	
4.4	Design of the test set	
4.5	Design and Implementation of the Plan of Implementation	
4.6	Perform test procedures	
4.7	Check termination	
4.9	software integrity level and testing	6
5	Unit Testing	
5.1	test object and purpose	
5.2	Test organization and management	
5.3	Technical Requirements	
5.4	Test content	7
5.6	Test Method	
5.7	Test Procedure	
5.8	Document	
6	Integration Testing	
6.1	test object and purpose	
6.2	Test organization and management	
6.3	Technical Requirements	
6.4	Test content	
6.5	Test Environment	
6.6	Test Method	
6.7	Test procedure	
6.8	Document	14
7	Test configuration items	7
7.1	test object and purpose	
7.2	Test organization and management	

7.3 Technical Requirements

7.4 Test content

7.5 Test Environment

7.6 Test Method

7.7 Test procedure

7.8 Document

8 System Test

8.1 test object and purpose

8.2 Test organization and management

8.3 Technical Requirements

8.4 Test content

8.5 Test Environment

8.6 Test Method

8.7 Test procedure

8.8 Document

9 Acceptance Test

9.1 test object and purpose

9.2 Test organization and management

9.3 Technical Requirements

9.4 Test content

9.5 Test Environment

9.6 Test Method

9.7 Test procedure

9.8 Document 30

10.1 test object and test purposes

10.3 Regression Testing

54 Correspondence between Annex D (informative) software test content

Foreword

This standard replaces GB/T 15532-1995 "computer software unit testing." This standard and GB/T 15532-1995 main difference Do the following.

- a) Since the standard contents were expanded, so the standard name from the original "computer software unit testing" to the current "computer software Test specification";
- b) standard structural adjustment changes as follows: GB/T 15532-1995 GB/T 15532-2008

4.1 Development of methodologies, resources and schedule

4.2 and related needs to be tested to determine the characteristics

4.7 Check termination

4.8 Evaluation of the test results and the unit under test Appendix A Implementation and Usage Guide Appendix B concepts and assumptions

9 Acceptance Test

10 Regression Testing Appendix A Software Testing Methods Appendix B Software Reliability Recommended models Appendix C of the template Software Testing Appendix D Software Testing correspondence between the content

c) by deleting the GB/T 15532-1995 custom term instead direct reference to GB/T 11457 terms and definitions;

d) according to the new standards are "test object and purpose", "testing organization and management", "technical requirements" of the major test categories, "Test Content", "test environment", "Test Methods", "access", "quasi-out conditions", "test" and "output documents" and other Entries to make further demands. Relatively new standard structured more clearly require clearer and more workable. This standard Annex A, Annex B, Annex C and Annex D is informative appendix. The standard proposed by the People's Republic of China Ministry of Information Industry. This standard by the National Information Technology Standardization Technical Committee. This standard was drafted. Shandong square co-Information Technology Co., Ministry of Information Industry Electronic Standardization Institute, Beijing track And Communication Technology Institute, Shanghai Computer Software Development Center, China Aerospace Science and Technology Corporation Software Testing Center, Shandong Computer Science Center, Shanghai Baoxin Software Co., Ltd. Shanghai Pudong Software Platform, Guangxi Software Park, Shanghai Information Technology Co., Ltd. Lu Qixin. The main drafters of this standard. Wangying Long, Xu often gather, Feng Hui, Dong fire people, Vang Pao Ai, Yanggen Xing, Wang Xin, pillars, Yin Ping, Zhang Louying, Li Gang, Package by Lin, Yang Mei-hong, Han Qingliang. This standard was first published in 1995. Computer software test specification
