- Part 10. block; This section GB/T Part of 615,566. This section of the Appendix A and

Appendix C for the informative Appendix B normative appendix. This part of the National Standardization Technical Committee graphic symbols (SAC/TC59) and focal points. This section drafted by: China National Institute of Standardization, Beijing University People's Hospital, Third Hospital of Peking University, Tsinghua University. The main drafters of this section. Zouzhuan Yu, a white house, Zhao Yue, Yang Li, Hongxing Yu, Chen rights, Zhang Liang. This section first release. Public information guidance systems - Setting principles and requirements Part 6. medical locations

1 Scope

GB/T 15566.6-2007 is the Chinese national standard on guidance system for public information - setting principles and requirements - part 6: medical site, in the field of generalities, terminology and documentation. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 14 November 2007 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 April 2008. Classification: ICS 01.080.01, CCS A22. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This section GB/T 15566 specifies the information public health facilities guidance system (hereinafter referred to health facilities guidance system) settings of the original And the requirements. This section applies to a hospital setting public information guidance system. Other health facilities (such as first aid centers, clinics, medical centers, etc.) Provided guidance system and medical staff dedicated guidance systems should refer to this section.
