This standard by the national rehabilitation and special equipment Standardization Technical Committee on Persons with Disabilities (SAC/TC148) centralized. This standard was drafted. China Rehabilitation Research Center, National Rehabilitation Devices Quality Supervision and Inspection Center. The main drafters of this standard. Ding Botan, Gu Yaling. This standard replaces the standards previously issued as follows:

--- GB/T 15722-1995.

Needs of persons with disabilities to participate in sports competitions under fair conditions, due to the different types of disability, disability different parts, as well as Sports functional requirements for movement of persons with disabilities are different, therefore, medical science Committees sports organizations of persons with disabilities internationally established The appropriate classification, entry standards and perform in international competitions. Disabled Sports Association of the respective international sports organizations of persons with disabilities When a member of our participation in international sports competitions of persons with disabilities of course, the application of

these standards, while in the country is also among the disabled sports competitions Using these criteria, therefore, we include medical standards equivalent to sit volleyball competition, including the relevant international standards. In order to promote The disabled sports should actively implement this standard histological grade staff learning and training, while in the country various disabilities Games people sit in volleyball matches. Volleyball sitting for disabled athletes eligible Medical standards

1 Scope

GB/T 15722-2009 is the Chinese national standard on competitive qualification of medical standard of volleyball sitting for disabled athletes, in the field of health care technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 16 March 2009 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 September 2009. Classification: ICS 11.020, CCS C05. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the volleyball sitting for disabled athletes medical standards. This standard applies to amputees and other athletes with physical disabilities.
