What this standard covers

This standard specifies the Journal of interpersonal exchange. Interpersonal messaging exchange is a form of message handling for everyday interpersonal business or special operations. This standard is one of a series of standards for message handling a group. GB/T 16284. 2 describes this set of criteria, and identifies the files. Other appropriate standard defines the system's basic message handling, GB/T 16284. 2 also identifies those files.
