What this standard covers

This standard specifies test methods for determination of oxygen index of insulating liquids. The basic principle of the test method and GB/T 2406-93 Determination of the same basic principles of the method of solid materials. This standard is only measuring a characteristic of the combustion characteristics of the various products. This standard applies to 40 ? ? 1 ? viscosity equal to or less than 50mm ^ 2/s for all liquids.

Document data

International classification (ICS): 29.035.40.

Chinese classification (CCS): G31.

Estimated length of the Chinese original: 10,196 words.

Adopted international standard: IEC 61144-1992, MOD.
