What this standard covers

This standard specifies the method of detection software, the software is used to calculate the coordinate measuring fitting elements. Related feature is a line (two-dimensional and three-dimensional), face, back (two-dimensional and three-dimensional), sphere, cylinder, cone and ring.

Document data

International classification (ICS): 17.040.30.

Chinese classification (CCS): J04.

Estimated length of the Chinese original: 18,124 words.

Adopted international standard: ISO 10360-6-2001, IDT.
