The main drafters of this document. Li Lin, Gao Shengpu, You Hua, Zhao Liqing, Liu Meiling, Pang Shumei, Xue Xiuhai, Wang Shufeng, Zhuang Guiyu, Zhang Yanjie, Xue

Zaijun, Sun Jimin, Liu Junwei. The previous versions of the documents replaced by this document are as follows:

---First published in.1998 as GB/T 17239-1998; first revised in.2008;

---This is the second revision. Fresh and frozen rabbit meat and by-products

1 Scope

GB/T 17239-2022 is the Chinese national standard on fresh and frozen rabbit meat and by-products, in the field of food technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 15 April 2022 by the State Administration for Market Regulation; Standardization Administration of China, and has been in force since 1 November 2022. Classification: ICS 67.120.10, CCS X 22. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This document specifies the product categories, technical requirements, test methods, inspection rules, and labels, signs, packaging and packaging of fresh and frozen rabbit meat and by-products packaging, storage and transportation requirements. This document applies to fresh and frozen rabbit meat and by-products obtained after slaughtering and dividing rabbits.
