Foreword

GB/T 17303 "invoice message" is divided into two parts.

--- Part 1. UN standard invoice message;

--- Part 2. International trade commercial invoice message.

This section GB/T 17303 Part 1.

This part of the revision uses the UN's ECE trade facilitation and e-business center (UN/CEFACT) UN/EDIFACTD.08A.

2008 "UN standard invoice message" (English version), the main differences are as follows.

--- The "scope" in the 1.3 "principle" adjusted to Chapter 4 "Principles of Application";

--- Adjustments to the reg number.

This Part replaces GB/T 17303.1-1998 "invoice message Part 1. UN invoice message." this section compared with GB/T 17303.1-1998 main changes as follows.

--- This section changes the use of UN/EDIFACTD.08A.2008 "invoice message", and GB/T 17303.1-1998 Equivalent use EDIFACTD.96B.1996 "Invoice message";

--- Preface to the standard has been modified;

--- Increasing the normative references;

--- Increase the content of the message.

This part of the national electronic business standardization Technical Committee proposed and centralized.

This section drafted by. China National Institute of Standardization, Qingdao Port (Group) Co., Ltd., Ningbo Port Co., Ltd..

1 Scope

This section GB/T 17303 provides for the payment of goods or services provided under the conditions agreed upon by both buyers and sellers Text. UN standard invoice messages containing the correct data definitions can also be used as debit notification messages and credit notification messages. This section the reference "INVOICE" (invoice) can be broadly interpreted as "invoice/credit notice/debit notice".

This section applies to domestic and international trade, which is based on common practice related to administration, commerce and transport, but does not depend on industry Business or industry type.

2 Normative references

The following documents contain provisions which, through reference in this part of GB/T 17303, become the provisions of this section. Any reference to the date of the citation all subsequent amendments (not including errata content) or revisions do not apply to this section, however, encouraged to be reached under this section the parties to the agreement examine whether the latest versions of these documents are available. For undated references, the latest version applies to this book section.

UNTDID Part 4 General Introduction to UN Standard Messages HS product name and coding coordination system
