1 Scope

GB/T 17303.2-2010 is the Chinese national standard on invoice message - part 2: commercial invoice message for international trade, in the field of information technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it

becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 2 September 2010 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 April 2011. Classification: ICS 35.240.60, CCS A13. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

GB/T 17303 provisions of this part of the application of the principles of international trade commercial invoice packet, packet structure and paragraph formats. This section applies to the desired providers in international trade of foreign as well as domestic customs clearance, foreign exchange, bid for all kinds of certificates and export tax rebates and other business Electronic invoice data exchange industry.
