### What this standard covers

This standard specifies the following criteria for each classification of various types or devices: - combinational and sequential digital circuits; - Memory IC; - Microprocessor Integrated Circuit; - charge transfer device.

### Document data

International classification (ICS): 31.2.

Chinese classification (CCS): L55.

Estimated length of the Chinese original: 123,195 words.

Adopted international standard: IEC 60748-2-1985, IDT.
