What this standard covers

This standard specifies the electrical and electronic equipment on dc input power port Voltage dips, short interruptions and voltage variations immunity test methods. This section applies to the network by an external DC power supply low voltage DC power supply device port.

Document data

International classification (ICS): 33.100.20.

Chinese classification (CCS): L06.

Estimated length of the Chinese original: 14,180 words.

Adopted international standard: IEC 61000-4-29-2000, IDT.
