1 Scope

GB/T 17693.4-2009 is the Chinese national standard on transformation guidelines of geographical names from foreign languages into chinese - russian, in the field of generalities, terminology and documentation. The /T suffix marks it as a recommended

standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 6 February 2009 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 August 2009. Classification: ICS 01.040.03, CCS A14. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

GB/T 17693 provisions of this part of the Russian geographical names into Chinese - rules. This section applies to the characters to write and translate Russian names.
