1 Foreword

GB/T 18270-2012 was issued by Standardization Administration of China on 31 December 2012 and has been in force since 1 June 2013.

It replaces the earlier edition GB/T 18270-2000.

2 Scope

This standard applies to vented nickel-cadmium batteries used in the electrolytic solution and its components. The electrolyte used. --- Perfusion no electrolyte battery; and/or --- The need to replace the battery electrolyte refilling liquid; and/or --- When working electrolyte need to fill with water. This standard does not provide specific recommendations for manufacturing of. Objective 2 The purpose of this standard is to provide a vented nickel-cadmium storage battery components, purity and identity of the electrolyte and its components, as well as not producing the electrolytic solution requirements for specific recommendations.

3 About this standard

Issued by: Standardization Administration of China

Adopted international standard: IEC 60993-1989, IDT

English translation: about 7 pages

Chinese original: about 10,194 characters

Supersedes the earlier edition GB/T 18270-2000.

4 Classification and status

International classification (ICS): 29.220.30

Chinese Standard Classification (CCS): K 84

Prefix GB/T: recommended standard.
