What this standard covers

This standard specifies the measurement of single-mode fiber with a cylindrical pin connector pin axis of the optical fiber and the angular deviation between the procedures.

Document data

International classification (ICS): 33.180.20.

Chinese classification (CCS): L50.

Estimated length of the Chinese original: 10,175 words.

Adopted international standard: IEC 61300-3-26-2002, IDT.

Standards quoted by this document
