What this standard covers

This standard specifies the fusion welding preheating temperature, interpass temperature and preheat maintenance temperature measurement requirements. Other welding methods can also be used with reference to this standard. This standard does not include post-weld heat treatment temperature measurements.

Document data

International classification (ICS): 25.160.01.

Chinese classification (CCS): J33.

Estimated length of the Chinese original: 5,530 words.

Adopted international standard: ISO 13916-1996, IDT.
