What this standard covers

This Standard specifies Slime water clarification, concentration and performance test methods for settlement of flocculants. Flocculant performance evaluated by free settling velocity (or initial settling velocity), the supernatant clarity and precipitate volume.

Document data

International classification (ICS): 73.04.

Chinese classification (CCS): D27.

Estimated length of the Chinese original: 12,126 words.

Adopted international standard: ISO 10086-1-2000, NEQ.

Supersedes the earlier edition MT/T 190-1988.
