

ICS 17.040.20

CCS J 04

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 18778.2-2003

**Geometrical product specifications (GPS) -- Surface texture: Profile
method -- Surface having stratified functional properties -- Part 2:
Height characterization using the linear material ratio curve**

(English Translation)

Issued on: April 15, 2003

Implemented on: November 1, 2003

**Issued by: General Administration of Quality Supervision, Inspection and
Quarantine of the People Republic of China**

What this standard covers

This standard specifies: The support rate curve (also known as the Abbott curve) to determine the parameters of the linear feature assessment methods. The curve describes as the roughness profile causing an increase in the depth of the surface material part increased. This standard applies to: assess the surface exposed to high mechanical stress job performance.

Document data

International classification (ICS): 17.040.20.

Chinese classification (CCS): J04.

Estimated length of the Chinese original: 6,635 words.

Adopted international standard: ISO 13565-2-1996; IDT.
