

ICS 17.040.20

CCS J 04

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 18778.3-2006

**Geometrical Product Specifications (GPS) -- Surface texture -- Profile
method -- Surface having stratified functional properties -- Part 3:
Height characterization using the material probability curve
(English Translation)**

Issued on: July 19, 2006

Implemented on: February 1, 2007

**Issued by: General Administration of Quality Supervision, Inspection and
Quarantine of the People's Republic of China, Standardization
Administration of the People's Republic of China**

What this standard covers

This standard specifies the material probability curve parameters of the linear region of the evaluation method to determine the probability ratio curve is expressed in the form of supporting Gaussian probability curve. This section applies to help assess the surface. Rub characteristics (eg: lubrication, sliding surface) and control the manufacturing process.

Document data

International classification (ICS): 17.040.20.

Chinese classification (CCS): J04.

Estimated length of the Chinese original: 19,115 words.

Adopted international standard: ISO 13565-2-1998, IDT.
