The main drafters of this standard. YE Xing, Zhao white, Ye Zhangwen, Ganqing Jun, Zhang Shi Yan, Fang Jun, Li Songlin. This standard replaces the standards previously issued as follows:
 - GB 19087-2003. GI products Qingyuan mushrooms

1 Scope

GB/T 19087-2008 is the Chinese national standard on product of geographical indication - qingyuan xiang gu, in the field of food technology. The /T suffix marks it as a recommended

standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 31 July 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 November 2008. Classification: ICS 67.080, CCS B39. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the terms and definitions Qingyuan mushrooms, the scope of protection of geographical indication products, product classifications, requirements, test methods, inspection regulations And the marking, labeling, packaging, transportation and storage. This standard applies to the State Administration of Quality Supervision, Inspection and Quarantine administrative department under the "geographical indication protection regulations" approved protection Qingyuan Mushrooms.
