What this standard covers

This standard specifies the cables burning under fire conditions required to maintain circuit integrity test procedures and performance requirements, including the recommended time for the fire. This section provides a sample preparation method, continuity test unit, the optical fiber test procedure and combustion method, and gives the results of the evaluation test requirements.

Document data

International classification (ICS): 29.020.

Chinese classification (CCS): K13.

Estimated length of the Chinese original: 3,381 words.

Adopted international standard: IEC 60331-25-1999, IDT.
