Technical Guidelines for Agricultural Wholesale Market Services

1 Scope

GB/T 19575-2025 is the Chinese national standard covering running a produce wholesale market - the layout and the cold chain facilities, the weighing and the settlement, the entry inspection and the quarantine, the traceability records and the waste handling of a place that moves thousands of tonnes a night. It replaces GB/T 19575-2004, a standard twenty-one years old, under the Ministry of Commerce. In force from 1 May 2026. Issued on 5 October 2025, it has been in force since 1 May 2026, replacing GB/T 19575-2004.

This document provides technical guidelines for the services of agricultural wholesale markets (hereinafter referred to as markets), including the operating environment, facilities and equipment, and business services. Service content. This document applies to markets that are applying for establishment or are in operation, and also to other types of markets that include wholesale trading activities of agricultural products. Excluding electronic trading markets for agricultural products.
