Foreword

This document complies with the provisions of GB/T 1.1-2020 "Standardization Work Guidelines Part 1: Structure and Drafting Rules of Standardization Documents".

Drafting.

This document is Part 1 of GB/T 19796 "Plastic Saddles for Agricultural Irrigation Equipment". GB/T 19796 has published the following...

part.

---Part 1: Polyethylene Pressure Pipe this document supersedes GB/T 19796-2005 "Plastic Saddles for Polyethylene Pressure Pipes in Agricultural Irrigation Equipment" and is consistent with GB/T 19796-Compared to 2005, aside from structural adjustments and editorial changes, the main technical changes are as follows.

- a) The scope of application has been changed (see Chapter 1, Chapter 1 of the 2005 edition);
- b) The thread requirements have been changed, and the title has been changed to "Branch Outlet" (see Chapter 6, Chapter 6 of the 2005 edition);
- c) Sampling and acceptance inspection requirements have been removed (see Chapter 7 of the 2005 edition);
- d) The requirements for test materials and test conditions related to material strength testing have been changed (see Chapter 7, Chapter 8 of the 2005 edition);
- e) The mechanical and hydraulic performance requirements have been changed (see Chapter 8, Chapter 9 in the 2005 edition);
- f) The pressure loss requirement has been removed (see Chapter 10 of the 2005 edition);
- g) The requirement for manufacturers to provide information has been removed (see Chapter 12 of the 2005 edition).

This document is equivalent to ISO 13460-1:2015 "Plastic saddles for agricultural irrigation equipment - Part 1: Polyethylene pressure pipes".

Please note that some content in this document may involve patents. The issuing organization of this document assumes no responsibility for identifying patents.

This document was proposed by the China Machinery Industry Federation.

This document is under the jurisdiction of the National Technical Committee on Standardization of Agricultural Machinery (SAC/TC201).

Introduction

GB/T 19796 "Plastic Saddles for Agricultural Irrigation Equipment" is proposed to consist of the following parts.

---Part 1: Polyethylene Pressure Pipes. The purpose is to provide the performance requirements and test methods for plastic saddles used in polyethylene pressure pipes.

Plastic saddle for agricultural irrigation equipment Part 1: Polyethylene Pressure Pipe

1 Scope

This document specifies the performance requirements and test methods for plastic saddles used in polyethylene (PE) pressure pipes in agricultural irrigation systems.

This document applies to polyethylene (PE) pressure pipes assembled for use in above-ground and underground irrigation systems, conveying water at a temperature not exceeding 50°C.

Plastic saddle.
