What this standard covers

This standard specifies the 50 Hz ~ 10 000 Hz standard frequency value. This standard applies to single-phase and three-phase AC systems, marine installations, ac traction systems, machine tools, textile industry and aircraft, telecommunications and other systems or devices used electrical and electronic equipment used in frequency. This standard does not apply to a particular machine or a machine group independent control loop portion.

Document data

International classification (ICS): 29.020; 01.070.

Chinese classification (CCS): K04.

Estimated length of the Chinese original: 5,584 words.

Adopted international standard: IEC 60196-1965, MOD.

Supersedes the earlier edition GB/T 1980-1996.
