### What this standard covers

This standard applies to counterattack/Pelton turbines, storage pumps and pump-turbine hydraulic performance of on-site inspection/testing related purposes. No other relevant standards promulgated by the former, this standard applies to all types of medium and small hydro- mechanical acceptance tests above purposes. But for small hydro machinery, certain provisions may be relaxed standard used by both parties in the contract OK. This standard applies to turbines and generators, water pumps and motors, pump-turbine electric generator directly connected with the structure, other types of structure can use and reference.

### Document data

International classification (ICS): 27.140.

Chinese classification (CCS): K55.

Estimated length of the Chinese original: 150,142 words.

Adopted international standard: IEC 60041-1991, MOD.
