1 Foreword

GB/T 20064.1-2023 was issued by State Administration for Market Regulation; Standardization Administration of the PRC on 28 December 2023.

It replaces the earlier edition GB/T 20064.1-2015.

It is one of 2 parts of the GB/T 20064 series.

2 Scope

This document specifies requirements for handle starting equipment used on reciprocating internal combustion engines for land, rail and marine use, excluding engines used to propel road vehicle and aircraft. This document may be applied to engines used to propel road construction, earth moving machines and for other applications where no suitable International Standards exist. In addition to the technical safety requirements, this document describes procedures for checking adherence to these requirements.

3 Normative references

ISO 11102 - -2:1997, Reciprocating internal combustion engines - Handle starting equipment - Part 2: Method of testing the angle of disengagement

4 About this standard
