What this standard covers

This standard applies to circuit breakers and overcurrent protection for household and similar plants used for residual current operated circuit breaker auxiliary contact assembly of electromechanical components, auxiliary contact assembly does not exceed the rated voltage AC 440V and DC 250V, rated current not exceeding 10A. The purpose of this standard is to provide contact assembly characteristics, contact assembly of electrical and mechanical performance requirements, contact assembly shall meet the functional requirements.

Document data

International classification (ICS): 29.120.50.

Chinese classification (CCS): K31.

Estimated length of the Chinese original: 32,358 words.

Adopted international standard: IEC 62019-2003, IDT.
