### What this standard covers

This standard specifies the technical requirements, testing, inspection, installation, operation and calibration guidelines for measuring a variety of gases and gas mixtures thermal gas mass flow meter, does not apply to use of thermal mass flow meters measure the liquid mass flow. This standard does not apply to hot-wire anemometer measurement point speed and other hot-film anemometer.

### Document data

International classification (ICS): 17.120.10.

Chinese classification (CCS): N12.

Estimated length of the Chinese original: 27,220 words.

Adopted international standard: ISO 14511-2001, IDT.
