Foreword

This standard is identical with ISO 6536. 1981 "Banking Bonds withdrawal slip standard format" errata and 1981 (in English).

For ease of use, this standard made the following editorial changes.

- a) "this International Standard" be replaced by "this standard";
- b) Remove the preface international standards;
- c) Remove international standards Information Appendix C. Example (French release). Original international standard Appendix D to the Annex to this standard C.

The Standard Annexes A and B are normative appendix Appendix C is informative appendix.

The standard proposed by the People's Bank of China.

This standard by the National Standardization Technical Committee centralized financial management.

Introduction

Bonds withdrawal slip widely used bond issuers, banks, financial institutions and stock exchanges. Bonds withdrawal slip can make these institutions when handling business (sales, coupon repayment, payment, etc.) to verify whether the holder to produce bonds

issued on or before the last issue has been repaid Bonds. Bonds can also make the bank withdrawal slip and bond business safe custody business and other financial institutions to check the bond holders after each ticket and as there is an amount repaid bonds for payment.

Because between countries and inside each country and the withdrawal of reimbursement procedures vary, standardized payment withdrawal slip reduces errors or sell risk repaid bonds.

Standardized withdrawal slip so that the international exchange of information more convenient.

Note: This standard is mainly used for the international exchange of information between the various countries in the interior, we can develop a more detailed specification.
