What this standard covers

This standard specifies test methods for the determination of high-density self-skinning rigid foam (apparent overall density greater than 100 kg/m³) properties. This standard applies to self-skinning rigid high density foam, skin foam, performance measurement of structural foam.

Document data

International classification (ICS): 83.100.

Chinese classification (CCS): G31.

Estimated length of the Chinese original: 9,998 words.

Adopted international standard: ISO 9054-1990, IDT.
