1 Scope

GB/T 21528-2008 is the Chinese national standard on bee products production management regulation, in the field of agriculture. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers

meet it. It was issued on 9 April 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 August 2008. Classification: ICS 65.140, CCS B47. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the quality assurance bee products, security management practices and to achieve traceability bee. This standard applies to all types of beekeepers, apiary, beekeeping cooperatives, cooperative union of apiculture, etc., of different sizes and with different raw bee products Production organization.
