The main drafters of this standard. Ray first soil, Weng Yiming, Wang Dongwei, Wang Weilong, Tu Chi Long. GI products Bamboo Charcoal

1 Scope

GB/T 21819-2008 is the Chinese national standard on product of designations of origin or geographical indication - suichang bamboo charcoal, in the field of petroleum and related technologies. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 5 May 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 October 2008. Classification: ICS 75.160.10, CCS B73. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the definitions of terms Suichang charcoal, the scope of protection of geographical indications product classification and marking requirements, test methods, inspection rules And marking, labeling, packaging, storage. This standard applies to the State Administration of Quality Supervision, Inspection and Quarantine administrative department under the "geographical indication protection regulations" approved protection Suichang Charcoal.
