What this standard covers

This standard specifies the determination of nickel iron cobalt content by flame atomic absorption spectrometry. This section applies to the determination of nickel iron cobalt content. Measuring range (mass fraction): 0. 025 % to 2. 5 %.

Document data

International classification (ICS): 77.100.

Chinese classification (CCS): H11.

Estimated length of the Chinese original: 7,710 words.

Adopted international standard: ISO 7520-1985, IDT.
