

ICS 13.300
CCS A 80

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 22054-2008

**Chemicals general method for determination of distillation
characteristics of organic liquids (other than petroleum
products)**

有机液体(除石油产品)蒸馏特性测定通用方法
(English Translation)

Issued on: June 30, 2008

Implemented on: February 1, 2009

What this standard covers

This standard specifies the boiling point at 30°C ~ 300°C, between the atmospheric distillation process is usually stable distillation characteristics of volatile organic liquid measuring method and test device. This standard applies to between 30°C ~ 300°C, in normal atmospheric pressure distillation process to maintain a stable volatile organic liquids Determination of distillation characteristics.

Document data

International classification (ICS): 13.300.

Chinese classification (CCS): A80.

Estimated length of the Chinese original: 14,160 words.

Adopted international standard: ISO 918-1983, IDT.

Standards quoted by this document

ISO 3405; ISO 4626
